

Standard Coupler on Inlet Water Level Control Structures™

Description	Inside Diameter	Fernco Item #
If connecting to 4" PVC or Corrugated Metal Pipe, inside of coupler measures approximately:	4.58"	1056-44
If connecting to 4" Corrugated Plastic Tile, inside of coupler measures approximately:	4.8"	1051-44
If connecting to 6" PVC or Corrugated Metal Pipe, inside of coupler measures approximately:	6.59"	1056-66
If connecting to 6" Corrugated Plastic Tile, inside of coupler measures approximately:	7.34"	1002-66
If connecting to 8" PVC or Corrugated Metal Pipe, inside of coupler measures approximately:	8.64"	1056-88
If connecting to 8" Corrugated Plastic Tile, inside of coupler measures approximately:	9.61"	1002-88
If connecting to 10" PVC or Corrugated Metal Pipe, inside of coupler measures approximately:	10.63"	1056-1010
If connecting to 10" Corrugated Plastic Tile, inside of coupler measures approximately:	12.4"	1002-1010
If connecting to 12" PVC or Corrugated Metal Pipe, inside of coupler measures approximately:	12.55"	1056-1212
If connecting to 12" Corrugated Plastic Tile, inside of coupler measures approximately:	14.5"	1002-1212
If connecting to 15" PVC or Corrugated Metal Pipe, inside of coupler measures approximately:	15.63"	1056-1515
If connecting to 15" Corrugated Plastic Tile, inside of coupler measures approximately:	17.81"	1002-1515
If connecting to 18" PVC or Corrugated Metal Pipe, inside of coupler measures approximately:	19"	1056-1818
If connecting to 18" Corrugated Plastic Tile, inside of coupler measures approximately:	18.88"	1002-1818
If connecting to 24" PVC or Corrugated Metal Pipe, inside of coupler measures approximately:	25.1"	1056-2424
If connecting to 24" Corrugated Plastic Tile, inside of coupler measures approximately:	28.3"	1056-2727
